CIO IS GETTING FIL SUPPORT ON KAUAI, STATED

Chronicle Roving Reporter Reports Varona's Work Belittled On Kauai

By RICARDO LABEZ

Lihue, Kauai, Nov.9 (Via Air Mail)—This island is going CIO. It is more CIO than I expected. The name of Francisco Varona is mud to a great many of the Filipino workers here who are convinced of his having been "sold" to the plantations. Not even the free return transportation concession he squeezed out of the HSPA trustees is appreciated.

But to the plantation managements, President Manuel L. Quezon's "personal representative" was a God-send. He came, they admit, in the nick of time. Evidently Manager Caleb K. S. Burns, of the Lihue plantation, did not make a mistake when he spent money for the radiophone SOS to Varona on Maui asking the latter to come immediately to Kauai.

First thing the famed "champion of labor in the Philippines" did upon disembarking from the plane at the Wailua airport was to surrender himself, knowingly or unknowingly, to the well-studied, carefully-planned, selfishly-designed hospitality of that small group of local Filipino "plantation men" who seemingly have become a permanent institution here, headed by the Rev. C. C. Cortezan characterized by Mauro Andaya, labor leader, in his speeches as "not a social worker but a social worm".

The CIO now has close to 2,000 members on this island. More and more Filipinos are applying for membership, encouraged by the change of attitude of assistant managers, overseers, foremen, and lunas toward the workers under them. Where the workers are unionized under the CIO, maltreatment of workers by superiors has been reduced to a minimum.

Varona succeeded at most in temporarily halting Filipino workers joining the CIO movement here. They were willing enough to hear what he had to say and to think on his advice. Many were told not to join the CIO until the HSPA

NATL LEAGUE MAY SEND ORGANIZER TO HAWAII

Prominent Local Leaders Recommended By Paredes' Assistant

(Special PCC Correspondence)

Washington, D. C. (Via Air Mail)—The newly organized "Filipino League for Social Justice" plans to organize a chapter of the organization in Hawaii shortly, it has been revealed here.

C. T. Elbo, first administrative assistant to the Philippine resident commissioner here, has recommended several prominent Hawaii Filipinos to the national executive officers as "reputable and respected" persons who may be interested in organizing a Hawaii chapter.

A representative of the local office of the organization may be sent to Honolulu to explain further the purposes of the League.

The League maintains its national headquarters in the Earl building here. B. M. Gancy is director and Attorney Juan R. Quijano is general secretary.

Teddy de Noiasco, fighting editor of the Philippine-American Advocate and said to be related to Mrs. Evaristo Fernandez of Honolulu, predicts an early demise for the organization "due to the similarity in its aims and objectives to those of the veteran Filipino Federation of America, under the capable guidance and leadership of Hilario Camino Moncado."

Noiasco speaks of Moncado, now probably in Hawaii, as "a revered idol of Filipino workers all over the United States and Hawaii . . . . a pioneer in the battle for honest and clean government in thePhilippines, for the rights of the underprivileged; and for legislation in the United States congress favorable to the interests of both Americans and Filipinos."

E. TAOK HANDS QUEZON PRAISE FOR INTEREST

Recommendation Of Legislative Measure For Hawaii Requested

The not too cordial feeling between our own Epifanio A. Taok (EAT for short) and His Impulsive Excellency, Manuel L. Quezon, dates back to a Palace grounds meeting at which the then militant labor leader said something that ired Don Manuel. The latter left the gathering damning somebody.

Taok, since then, has seized upon every opportunity to damn MLQ. Flash! Taok hands Quezon a bouquet. "We are not," says he to the President in a letter dated November 3 made public this week, "without appreciation for the interest you have of late shown in the well-being of our countrymen in this strategic point in the Pacific."

"I am sure I express the sentiment of all our countrymen in the Territory," avers Taok, "when I say it is to be fervently hoped that Your Excellency will recommend at this session of the National Assembly legislation to improve the conditions of Filipino nationals domiciling in Hawaii and safeguard their rights and interests . . . . We pledge our support for any effort on your part in our behalf."

Inaugural Day Radio Program Highly Praised

The all-Filipino broadcast program sponsored by the Club Filipino at Station KGMB Sunday morning from 11 to 12 was highly entertaining and genuinely educational, according to calls received by the Chronicle.

Presenting a well-balanced musical and literary program, the Club Filipino was lauded for the success of the broadcast to commemorate the Second Anniversary of the Commonwealth.

The program follows:

MONCADO ORDERS ALL FFA MEMBERS TO LEAVE ISLAND AFTER ROW WITH NAIA PILOT

Feels Slighted by Lanai Authorities, Captain Frank Calhau; Cancels Plans For Planting 'Goodwill' Banyan Tree

By RICARDO LABEZ
Staff Writer
Philippine Commonwealth Chronicle

Lahaina, Maui, Nov. 15 (Via Air Mail)—All members of the Filipino Federation of America, Inc. on Lanai reported anywhere from 250 to 1,000 are evacuating the island because they feel they have been slighted. About 30 of them, members of the Federation band from Lanai which has been accompanying Dr. Hilario Camino Moncado, supreme head of the organization, on his tour of Kauai, Oahu and Maui, decided yesterday afternoon at the Mala wharf here not to return to Lanai and apply for work instead with the Pioneer Mill company.

In less than an hour after he was informed about the matter John T. Moir, manager of the plantation, had a truck at the wharf to take the men and their luggage to temporary quarters at Puuholii camp. He indicated he would hire the men, provided no objection was forthcoming from D. Frazer, head boss of themen on Lanai, this morning.

Decision of the men to leave Lanai en masse followed a row at the wharf between Dr. Moncado and Frank Calhau, pilot of the launch Naia which was to have taken the party at 3 p. m. yesterday from here to Lanai. Dr Moncado was scheduled to plant a Banyan tree in Lanai city symbolizing the goodwill of the organization to the general community of Lanai.

As Dr. Moncado and the band had been at Wailuku to take part in the tree planting ceremonies there, they drove over to Lahaina yesterday afternoon, arriving about a half hour before sailing time. Calhau refused to let the Banyan tree be taken aboard the Naia despite the fact that the Federation had been given a permit to hold the tree planting ceremonies in Lanai city and the tree itself was a gift of the Maui County board of supervisors taken from the government nursery at Wailuku. According to Calhau, the tree had to be passed first by the local plant inspector.

Later Calhau explained it was the soil that could not be taken to Lanai because of a territorial law and "strict orders". Consequently, it was decided to take just the plant alone, minus soil. Calhau became engaged in an argument with Dr. Moncado in which the pilot held he was making a "special trip for the benefit of the boys". The Federation head argued that if it were the wish of Calhau and the "authorities on Lanai" to please the Federation, they should have allowed the tree to be transported across the channel without making such a fuss over the soil.

Calhau impatiently left the crowd, going to his launch and telling them they could find their own way over. Dr. Moncado evidently heard him mumble, "You can x'?"*'lb? ?! z3?ff';! &'x%,?", as he retorted with "You can go to hell too". He proceeded to order cancellation of all plans for his reception and other Federation activities on Lanai.

The frantic efforts of Willie Whittle, field boss for the Hawaiian Pineapple company on Lanai who had arrived on the scene with the Lanai City football team, to get Dr. Moncado to take the trip on the Naia failed. Whittle apologized for Calhau "in the name of the Hawaiian Pineapple company", pleading with Dr. Moncado to change his mind and assuring him of every cooperation on Lanai.

Dr. Moncado said he harbored no illwill toward anyone

Editorial Notes:

There seems to be a striking paralellism in the money-accumulating systems of Rev. N. C. Dizon and Dr. H. C. Moncado. But what of these systems is a "racket" remains to be seen. To us, racket is defined as money pocketeering. The seeming paradox will either be explained or solved in a series of articles starting in our next issue.

* * * * *

The "goodwill tour" of Dr. Moncado in these parts is ending with ill-will, when on the last lap of his journey to Lanai he was insulted by an alleged insolent and arrogant Launch Captain. The incident is said to have been due to the pilot's refusal to transport Dr. Moncado's men across the channel and preferring to accomodate football players to his band players. The net result is: Lanai Filipinos are evacuating! They are being sent to Molokai, perhaps, to form another Colony. Rev. Dizon's disciples will soon be outnumbered by Dr. Moncado's followers. Right here we can stop, look and listen!

"Monkey-see, monkey-do" is becoming the ordinary parlance of money-bought yellowish-green journalists. Again it is being rumored that some Filipino would-be authors and journalists are planning to put out a publication determined to check out the alphabetical movements like the HIFL, CIO, AFL, etcetera. And too, it is understood that the paper is going to be sugar-and-syrup-coated mouthpiece of a jelly-fish, backboneless few. Why they are putting out a new paper, it is easy to understand. They say: "Others are making money by selling their principles and birthrights, why can't we do . . . . . ?"

Here is a problem creating another problem: Stop Prostitution and what will you have? A drive has already been started to clean the city of the degrading vice, but there are still many white-slave traffickers who are infernally causing the ruin of many a life. And even if the vice is held in check, what shall we do to protect the innocent girls from the criminal attacks of human brutes? This is where Christianity should prove to be a power. The panacea to this social ill is to have people genuinely Christianized.

Vignettes of the Philippine Commonwealth

GREGORIO F. ZAIDE, PH. D.
History Professor, Far Eastern University and Exchange Professor to Hawaii

Today, a rising democracy of the Orient is, jubilantly marking its second year of existence. To the symphony of acclamations of both America and Filipinos and to the cacophony of the raging Sino-Japanese war, the Commonwealth marches on.

The last two-year achievements of our Commonwealth are productive accomplishments which any nation on earth can indubitably be proud to call their own.

Looming large and bold above the parade of achievements is the enfranchisement of the woman after the plebiscite of May 14, 1937 wherein the Filipino women signified their desire to enjoy the right of suffrage. The Philippines can now boast of being the first and only Oriental nation to smash the political fetters that shackle womanhood.

The Commonwealth government is clean, sound, and stable. The best legislative, administrative, and judicial minds of the Islands are occupying key-positions in the different governmental departments. President Quezon, true to his political philosophy of "less politics and more government", guides the nation with unstinted patriotism and statesmanlike sagacity.

The exploited laboring mass has been uplifted to a higher plane of living, with assurance of welfare and happiness. This is being consummated under the oriflame of Quezonian social justice. By statutory law and by presidential proclamation, brigandage and vagabondage are wiped out; communism and sakdalism are held in check; gambling and vice are checkmated; and better wages and fairer treatment of the wage-earners are realized.

The national defense of the Philippines are laid down in accordance with the military plans prepared by General MacArthur. Last year 20,000 Filipino youths underwent military training, and this year another bunch of 20,000 are being trained under competent military instructors. The air defenses are getting into shape. New types of combat planes have been imported, and several Filipino airbirds have been sent to America for advanced studies in aerial warfare. In due time, the Commonwealth expects to have a citizen-army of 5000,000 trained in the latest technique of the war game.

The economic set-up is in a highly prosperous situation. The volume of foreign and domestic trade this year is greater than that of last year. The mineral output last year was ₱65,000,000 which was bigger than that of Alaska.

Plenty of surplus money are kept securely in the Common-

MESSAGE TO FILIPINOS IN HAWAII

(EDITOR'S NOTE: The author of the following article specially written for the PHILIPPINE COMMONWEALTH CHRONICLE, was for 16 years personnel and welfare director for the Waialua Agricultural company considered one of the most progressive sugar plantations in the territory under one of the most liberal managements.)

I have been asked to extend greetings to the 60,000 Filipinos of Hawaii on the occasion of the second anniversary of the founding of the Philippine Commonwealth, and I embrace the opportunity wholeheartedly.

Not having had the pleasure of a visit to the Philippines myself, I have nevertheless been very closely associated with thousands of Filipinos during my 16 years of personnel work at Waialua. And I can say with all sincerity that I know of no other racial group that has made such rapid progress along economic and industrial lines in as short a period of time.

Through conscientious and diligent toil, the Filipinos in the Territory have contributed as much as any other racial group to the development of Hawaii's basic industries, sugar and pineapple. They are an unusually sober people, very rarely ever indulging to excess. They are friendly and generous, ever ready to share their worldly goods not only with their compatriots but also with people of other races. They are peace-loving, being more apt to follow the god of Love than the god of War. They crave education, often taking advantage of night schools after long hours of labor in the fields during the day. They have a high ideal of sportmanship, very seldom questioning an umpire's decision in any branch of athletics, ever being upholders of "sports for sport's sake". Truly in many ways the Filipinos in Hawaii have shown to the people of America that they are ready to assume the duties of Independence.

But there are numerous pitfalls here in Hawaii. What the Filipinos need more than anything else is intelligent, dependable, honest, unselfish leadership. Efforts have been made in the past to keep the dialects divided, and there has never been a leader powerful and unselfish enough to convince them that they must first be Filipinos, and then Tagalogs, Ilocanos, Visayans, etc. United the Filipinos are a power in Hawaii; divided they are a prey not only to unscrupulous employers but also to dishonest, selfish, pseudo leaders among their own race.

The Filipinos in Hawaii must organize, not in Company Unions with leaders and by-laws adroitly selected by employers contrary to the Wagner Act, but in a strong central union with leadership of their own choice, ever on the alert to secure just participation in the wealth which they create. Under the Wagner Act, stool pigeons and spyings are taboo. Employees must be free to organize for collective bargaining without any interference, or guidance (?), whatsoever on the part of employers. Hawaii is years behind the mainland in this regard, as was pointed out by several members of the visiting Statehood Committee, and the sooner the Filipinos of the Territory organize independently, though always with a spirit of tolerance and cooperation, the better for them, and for the other working people of Hawaii.

Again I extend to the Filipinos of Hawaii, and to their loved ones across the sea, my warmest aloha on the second anniversary of the birth of the Philippine Commonwealth. Leaders in the home land are assuming their new responsibilities with vigor, earnestness, honesty and unselfishness, and leaders must be developed here in Hawaii to carry on in the same spirit of service.

(Signed) Henry A. Rudin

THE PHILIPPINE COMMONWEALTH

Heartily dedicated to the Filipino people on the second anniversary of the Philippine Commonwealth Government.)

Verdant isles for whom died our forebears
Our hearts palpitate with much joy today
For to freedom, another stride we draw near—
Ah, these jubilations in our midst so gay!

A lovely child of destiny thou art,
Part Oriental, with a soul Occidental,
But entity, a Philippines by heart,
That stands on Democracy's pedestal.

Groomed by fair Columbia's helping hands,
Champion of Democracy's sweetest daughter,
That holds the beacon light for benighted Lands,
High overhead on Life's gigantic theater.

Thou art a Sampaguita—virginal bloom—
Flower of joy, snowy-white, sweet and pure;
Thy enchanting perfume impregnates our homes
With ardor, we give thee our love that endures

Oh, unique gem of the eastern sea—
That radiates mixed enchanting Lights,
Caressed by the morning's silken breeze,
Gilded by the returning sun, bright.

Oh, precious, "Pearl of the Orient Seas,"
Radiate thy luster for exultant peace,
But if invaders, thy sacred shores trangle,
Thy honor shall be preserved by us thy people.

Moncado Orders All FFA Members To Leave Island After Row With Naia Pilot

(Continued from page 1)

but that his decision rested on cessation of all Federation activities on Lanai. "Welcome now would be under duress; it would not be coming from the heart. It was never meant, anyway," he said.

In a statement to the Philippine Commonwealth Chronicle, Dr. Moncado, whose word is law with his followers, stressed: "We are not striking. We do not hate the company or the government. We have always been apostles of peace and order. We have been examples of our own teachings. We are not declaring war on anybody. Hatred is against our philosophy of life. We never hate anybody.

"But, we are simply moving out to live somewhere else where we are more welcome and where my followers can feel freer. They can hardly move on Lanai. That place is a veritable Culion. I have made my decision. So have my followers. I consider the whole incident an affront to my country and my people. I am standing up for the dignity of my nationality. It is a matter of principle, of loyalty.

"If the employers of my followers on Lanai thought enough of them and of me, they would have told them about having the soil of the tree inspected before bringing it to the wharf at sailing time, they would not have had such an unrespecting, discourteous, gruff, insolent captain pilot that boat. It was his attitude toward me and toward the whole matter that I resented. If it has been done to me, know it can be done to Filipinos who are just common workers."

Cirilo Segui, head of the arrangements committee, it was learned, was told at the eleventh hour that the Naia could not accomodate more than 8 persons of Dr. Moncado's party because of the Lanai City football players who played Lahainaluna high yesterday afternoon here. This information was given Segui after he had been assured that the band players would be taken over to Lanai on a fishing boat towed by the Naia.

"That shows how much they wanted us to go to Lanai on our noble mission of cementing understanding and goodwill between the Filipinos and other races there," commented Dr. Moncado. "If the football boys mean more to them than my men who have been most loyal to their employers and most conscientious in their work and most peaceful in their dealings with their fellow men, under my leadership, Lanai can have the football players; I'll take my men elsewhere. If necessary, I can ship them to my colony in Mindanao."

Libby McNeill & Libby is said to have asked Dr. Moncado to supply it with any number of Federationists to work on Molokai. Dr. Moncado yesterday indicated he may transfer his Lanai followers toMolokai, if he is assured they will be treated there and "recognized as men, not as mere slaves". The popular Federation band of Lanai will be taken to Honolulu that it may be made readily available for any worthy occasion.

Lahaina is understood to need men. Last week it put out about 80 men allegedly connected with the recent strikes. The men applied for work at Paia, but were turned down on the request of Mr. Moir. Plantation agents from Lahaina have been recruiting men on Oahu. It is believed about 100 men have been imported.

Dr. Moncado rushed to Honolulu on the s. s. Hualalai at midnight to work out definite plans for those followers of his who are still on Lanai. He was accompanied by Bernardino Arado, chairman of the territorial board of advisers of the Federation; Benny Escobido, public relations chairman; Pedro B. Valdez, manager of Kauai Branch No. 6; and Agapito Ramos, adviser of Kauai Branch No. 6. With the party also was pretty Miss Frances Suelto, "Miss Territory" at the Decennial celebration of the Federation.

ANG MANCUMUNIDAD IPAG DIRIWANG NATIN DITO

Ikawalang Taong Gulang Ang Ating Pamahala-an Ngayon

Sa araw na ito Noviembre 15, 1937, bilang ikalawang taong nakara-an ay siyang araw ng pag pasimula ng pag saya, tuwa at ligaya ng mga Filipino, sa pag ka't sa araw na ito siying pag ka tawo sa ating Mancomunidad (Commonwealth)) sa Filipinas, pasimula ng pag handa sa loob ng sampong taon, bago ipag kaloob ng America ang ating pag sarili ng pamahala. Inuulit ko sa inyo ang tanong. Kayo ba mga Kababayan, nais na magsarili ang ating Bayan? Kailangan ba natin ang maging malaya sa lsong madali? Kung ang tanong naito ay ang inyong magging kasagutan ay ang pag sangayon, bakit tayong mga Filipino sa Haway hinde pa nag kaisa sa isang layunin ukol sa pag hahanda sa kalayan ng ating Inang Bayan? Kailan pa tayo mag hahanda sa pag tanggap ng ating kasarinlan, kung dumating na ang panahon na ang ating bayan kukunin naman ng ibang Lahi? Dito sa Haway nakikita natin na kung ang Lahing Filipino ang mangulo sa pag tawag ng pagkakaisa ukol sa kabutihan ng kalahi, walang sasama kay sa kanilang palagay mata-asan sila at ang tumawag na una kalaban ng Pununan. Subalit kung ang ibang Lahi ang tumawag hinde pa napakinggan ang hustong tawag, sinagut kagad ang sinisigaw kahit na hinde naintindihan ang ipinguutos. Halimbawa, sa kapisanan. Maraming Filipino ang nag Organisar dito, nahirapan sa pag paanib ng mga kalahi. Subalit ng tinawag sa CIO, ang taga Kauai halos sumama. Iahat at hinde nila halalaman kung ano ang darating sa kanila bukas. Ito baga ang sagot ninyo sa pag sangayon sa tanong sa ita-as na tayo ay nais na mag sarili at nakahandang mag sarili na dito sa Haway nais natin na ang ibang lahi ang mangulo sa ating pag kakaisa? Malaking kamalian ang inyong pag sagot sa pag sangayon sa pag sarili. Sa hangad ninyong makatulong sa Filipinas, sa America kayo nag bigay ng inyong tulong.

Sa Filipinas ngayon halos ang hinde pa maronong tumawa, hapilitang ngumiti kasama sa kanilang mga magulang sa pag diriwang sa ating Mancomunidad. Dito sa Hawaii, hinde ko nalalaman kung talagang tapat ang karamihang nag Celebrar sa Commonwealth sa pagkat makikita. ninyo sila bukas na hinde na makakilala sa inyo na kapatid sa lahi sa pagka't ang karamihan dito makakilala sa kalahi kung may kailangan, datapua't kung matapos na ang kailangan sa mga dukha, sila pa ang katulong ng panganganpi sa kanilang sariling aping lahi sa Haway.

Mga Bunga sa pag Hahanda

Pinag kalooban ng karapatan ang ating mga "Wahines" Babaye na maka boto at maka candidato sa panahon ng Eleccion sa Decembre 14, 1937 ang pasimula. Matapos ito, pag kalooban din sila sa batas ng ating pamahala-an na maka pag Divorcio sa kanilang mga asawa: Naging Panguio ang Filipino sa Filipinas hinde na Americano, sa kata-as taasang pamahala-an mula sa pag ka Presidente. Naging marunong ang halos lahat babayi't lalaki na mag balikat ng baril upang mag sundalo na hinde lamang maronong pumatay, kun hinde lalong maronong mag pakamatay sa Bayan. Sa Haway mayroon ding mga ilan na mabilang na makabayan, karamihan mga Obrero hinde mga studiante. Bakit Kulang tayo ng mga makabayan sa Haway? Dahilan na ang mga Liders dito ay silang may mga kasal-anan sa hinde nila pag kakaisa, kung kaya hinde nalalaman ng mga Manggagawa kung sino ang dapat nilang sundin. Ang tulong natin dito hinde mabilang na bunga sa paghahanda kunde kasama lamang sa sigaw ng ating tuwa.

Special Session

Ang Especial Sesion sa Congreso sa America na tinawag ni Presidente Roosevelt, kay pala itinaon sa fecha 15 ng Noviembre upang maka-sila ng Congreso ang ating pag Diriwang sa Mancomunidad, dahilan na ang ating Presidente Quezon nag hingi sa kanila na ipag kaloob ang kalaya-an sa Filipinas sa 1938 o 1939. Datapuat ayon sa mga balita na hinde muna nila pag uusapan sangayon hanggan nag High Commissioner Hon. Paul V. McNutt, makapag conferencia kay Pres. Roosevelt sa buan ng Enero 1938. Ano man ang mangyayari, lalong kailangan natin ang matibay na pag hahanda.

FEDERATION HEAD URGES LOYALTY TO PLANTATIONS IN KAUAI SPEECH

Kapaa, Kauai, Nov. 7 (Via Air Mail)—Loyalty to God, to country, to the Federation, and to the plantations, "your benevolent and paternalistic employers", was the keynote of the eloquent and inspiring address of Dr. Hilario Camino (Local Boy Makes Good) Moncado to about a thousand of his followers who packed to overflowing the Hawaiian church hall here this morning.

"In order to succeed in life, you need not fight the plantations, you need not strike, you need not join the CIO," the multi-degreed founder - president of the Filipino Federation of America, Inc. told his listeners. "I am an example of that philosophy. I have risen from the ranks of the common masses. I am a product of the plantations of Hawaii. By dint of hard work, determination, patience, and loyalty to my employers, I have made a success of myself."

Last night Dr. Moncado was honored at a banquet at the Lihue hotel pavilion tendered by the local branch of the Federation under the leadership of Pedro B. Valdez and attended by some of Kauai's most prominent citizens and public officials. Guest speakers were Senator Elsie H. Wilcox, Rep. Clem Gomes, Mr. R. Aguiar, Jr., chairman of the Kauai Board of Supervisors, and Ricardo Labez whose address prompted Board Chairman Aguiar to say: "Every time I hear my good friend Mr. Labez speak I am University of Hawaii."

Senator Wilcox, like Mr. Aguiar, congratulated the Federation for its accomplishments, particularly referring to the planting of a Banyan tree at the Nawiliwili park in token of the goodwill and friendship of the Federation to the community of Kauai. "I have not found Dr. Moncado hard to understand at all," declared the woman legislator. "I have had one of the most pleasant conversations I have ever had, talking with him. I believe he is a great leader."

Earlier in the day, the Federation staged a parade from the Lihue theatre to the Nawiliwili park with the Federation band from Lanai leading. At Nawiliwili park the Banyan tree planting ceremonies started promptly as schedule fer 4 p. m. with Chairman Aguiar as master of ceremonies. Among those present were:

Mrs. Dora R. Isenberg, Kauai Park commission member and beloved philanthropist; William Rice, sheriff, County of Kauai; Mrs. Philip L. Rice, chairman, Kauai Park commission; Albert Horner, manager, Hawaiian Canneries Co.; Fred Frizelle, principal, Kauai high school; J. W. Bertrand, port captain, Lihue Plantation; Carrick H. Buck, Judge Fifth Circuit court; Dr. Lawrence L. Patterson; and Miss Elsie Wilcox, territorial senator.

Kauai has fallen in love with the Federation band. The band has been invited to give a concert at Puhi by Manager W. Alexander of Grove Farm plantation. Tomorrow night the Kawaihau Filipino community association is presenting it in a public concert at the Kapaa park.

Dr. Moncado leaves tomorrow morning by plane for Honolulu.

Moncado, president and founder of the Filipino Federation of America. Because Jack Bertrand, port captain at Ahukini, had offered lodging accomodations to the members of the Federation band from Lanai, at the Ahukini plantation hall, the leader of the strike plan, a loyal Federation member, consented to "forgive Jack just one more time".

(Editor's note: Mr. Labez will write more on the labor situation on Kauai in coming issues of the Chronicle.)

FAMOUS CONTROVERSY

Between Rev. N. C. Dixon and Dr. H. C. Moncado will be discussed in a series of articles starting next issue.

had given its reply to his 3-point plan.

While many of the Filipinos here are willing to grant the abor investigator the benefit of their suspicion, they are nonetheless of the opinion he has accomplished nothing worthwhile.

A Filipino CIO labor leader put it to me yesterday thus: "The Varona who came this time was not at all like the Varona who came here in 1922. This was a Varona who confined himself to the company of the plantation stooges and could not understand the needs of his countrymen."

A protest strike by longshoremen at Ahukini set for last Saturday was nipped in the bud by Dr. Hilario Camino

wealth chest; amounting to no less than ₱139,000,000. The budget since 1935 is always balanced, with a reasonable surplus at the end of each year.

The people's education and health are better now than ever. There are 8 universities, more than 400 private colleges and high schools, and 8,000 public schools in the archipelago. The public school system is staffed by 27,000 teachers and attended by 1,300,000 Filipino children. The ravages of epidemics are nil. Hospital and artesian wells have been constructed throughout the Islands.

The Filipinos are confidently united in their libertarian aspiration. They may be diversified in certain petty issues, but when it comes to supporting their Commonwealth, they are a solid, compact, nationalistic people.

By the grace of God and America, we Filipinos hope for a brighter future. The world horizons may be dark with ominous clouds of war, but such a gloomy international outlook cannot shake the confidence and patriotism of our people form their dream of independence.
